LLD IM GOLD

PATENT LICENSE TERM SHEET
(INSTITUTION GRADE)

Version: 1.0

Date: July 19, 2026

Document Classification: CONFIDENTIAL — FOR DISCUSSION PURPOSES ONLY

Governing Law: State of Utah (Title 48, Chapter 5 — Utah LLD/DAO Act); 35 U.S.C. (Federal Patent Law)

THIS TERM SHEET IS FOR DISCUSSION PURPOSES ONLY AND DOES NOT CONSTITUTE A BINDING AGREEMENT EXCEPT AS TO CONFIDENTIALITY PROVISIONS AND ANY DESIGNATED EXCLUSIVITY LOCK-UP. THE PARTIES INTEND TO NEGOTIATE AND EXECUTE A DEFINITIVE PATENT LICENSE AGREEMENT INCORPORATING THE TERMS SET FORTH HEREIN. NOTHING HEREIN SHALL BE CONSTRUED AS AN OFFER CAPABLE OF ACCEPTANCE SO AS TO FORM A BINDING CONTRACT EXCEPT AS EXPRESSLY STATED.

PARTIES

Role	Entity	Details
LICENSOR	**LLD IM GOLD**	Utah Limited Liability Decentralized Organization, formed under Utah Code Ann. §48-5-101 et seq.; gold-backed treasury entity; governed by on-chain smart contracts and off-chain Legal

Role	Entity	Details
		Representative.
LICENSEE	[LICENSEE ENTITY NAME] *(To be completed at execution)*	Entity type, jurisdiction of formation, principal place of business, and authorized representative to be inserted at execution.
ADMINISTRATOR	[Optional — Third-Party IP Administrator or DAO-Designated Legal Representative]	Identity, authority scope, and engagement terms to be inserted upon designation by DAO governance vote.

ARTICLE 1 — RECITALS & PREAMBLE

1.1 Context of LLD IM GOLD

LLD IM GOLD is a Utah Limited Liability Decentralized organization organized and existing pursuant to Utah Code Ann. §48-5-101 et seq. (the "Utah LLD/DAO Act"). LLD IM GOLD maintains a gold-backed treasury, the **LLDAO Treasury**, subject to on-chain governance mechanisms and administered by a designated Legal Representative in accordance with Utah Code Ann. §48-5-305. LLD IM GOLD operates the **AETHEL Grid**, a proprietary segmented field-of-use licensing architecture designed to partition the commercialization universe of its intellectual property portfolio into discrete, governable **Grid Sectors**, each assigned distinct royalty economics, exclusivity parameters, and governance thresholds.

1.2 Purpose of This Term Sheet

This Term Sheet is issued by LLD IM GOLD to establish the principal commercial, legal, and governance terms upon which LLD IM GOLD is prepared to grant a patent license to the **Licensee** identified above. This Term Sheet is intended to guide and facilitate negotiation of a binding Definitive Patent License Agreement (the "Definitive Agreement"). **Except as to the confidentiality obligations set forth in Article 10 and any expressly designated exclusivity lock-up provisions, this Term Sheet is non-binding and shall not be construed as creating enforceable obligations between the parties.** The parties acknowledge that the

Definitive Agreement, when executed, shall supersede this Term Sheet in its entirety.

1.3 Legislative and Regulatory Context

The parties acknowledge and take note of: (a) **Utah HB 306 (2025)** and the Utah Precious Metals Amendments, which authorize precious metals-backed electronic payment infrastructure and are directly relevant to the gold-backed royalty settlement mechanics contemplated herein; (b) the federal patent statutory framework, including 35 U.S.C. §§ 1 et seq., governing patent rights, enforcement, and licensing; and (c) the federal Bayh-Dole Act (35 U.S.C. §§ 200–212), which may be applicable to certain Licensed Patents developed with U.S. federal funding support.

ARTICLE 2 — DEFINITIONS

As used in this Term Sheet and the Definitive Agreement, the following terms shall have the meanings ascribed to them below. All defined terms appear in **bold** upon first use and are consistently bolded throughout this document.

2.1 **"Licensed Patents"** means all patents and patent applications listed in *Schedule A* hereto, together with all continuations, continuations-in-part, divisionals, reissues, reexaminations, extensions (including patent term extensions and supplemental protection certificates), and foreign counterparts thereof, whether now existing or hereafter filed, prosecuted, or issued.

2.2 **"AETHEL Grid"** means LLD IM GOLD's proprietary field-of-use segmentation and licensing architecture, which divides the commercialization universe of the Licensed Patents into discrete, separately licensable **Grid Sectors** as defined in *Schedule B*, each subject to independent governance parameters, royalty tiers, and exclusivity configurations.

2.3 **"Grid Sector"** means each defined commercial, technological, or jurisdictional domain within the AETHEL Grid as specified in *Schedule B*, identified by a unique Sector ID and corresponding set of permitted uses, excluded uses, and royalty tier assignment.

2.4 **"Gold-Backed Royalty Unit" or "GBRU"** means the unit of royalty denomination established by LLD IM GOLD, pegged to a specified weight of fine gold on a troy ounce basis. One (1) GBRU = 0.001 troy ounce of fine gold (999.9 fineness / four nines purity). Conversion to U.S. Dollars or other approved currencies shall be effected at the London Bullion Market Association (LBMA) gold price fix (PM fix) on the last business day of the applicable settlement period, as further described in *Schedule F*.

2.5 **"LLDAO Treasury"** means the on-chain, gold-backed treasury of LLD IM GOLD, administered via DAO governance mechanisms and smart contracts, into which all royalty receipts are deposited and from which disbursements are authorized by DAO vote, subject to maintaining minimum gold-backed reserves as required by the DAO governance protocol referenced in *Schedule E*.

2.6 **"DAO Governance Trigger"** means any on-chain vote, smart contract execution, or supermajority governance action required under Article 7 of this Term Sheet that modifies license terms, royalty rates, field-of-use grants, or treasury mechanics, or otherwise constitutes a material action affecting the rights or obligations of any party under the Definitive Agreement.

2.7 **"Licensed Field of Use"** means the specific Grid Sector(s) granted to Licensee as identified in *Schedule B*, constituting the sole scope within which Licensee is authorized to practice the Licensed Patents under the terms of the Definitive Agreement.

2.8 **"Net Revenues"** means gross revenues of Licensee actually received and attributable to the practice of the Licensed Patents in the Licensed Field of Use, less documented deductions for: (a) returns and allowances; (b) sales, use, value-added, and similar taxes separately stated and borne by the purchaser; (c) separately invoiced outbound shipping and insurance; and (d) applicable regulatory fees and assessments. No double deduction shall be permitted.

2.9 **"Patent Expiration Date"** means, with respect to any Licensed Patent in a given jurisdiction, the last date on which such Licensed Patent remains in force, taking into account all applicable patent term extensions, supplemental protection certificates, and term adjustments, but excluding any period of post-expiration enforceability based on Know-How rights alone.

2.10 "Post-Expiration Know-How Royalty" means a royalty payable after the applicable **Patent Expiration Date** solely for Licensee's continued use of **Licensed Know-How** (non-patent intellectual property), independently negotiated at a stepped-down rate as set forth in *Schedule C* and expressly tied to Licensed Know-How only — and not to any patent claim — consistent with the Supreme Court's holdings in *Kimble v. Marvel Ent., LLC*, 576 U.S. 446 (2015) and *Brulotte v. Thys Co.*, 379 U.S. 29 (1964).

2.11 "Sovereign Licensee" means a nation-state, sovereign wealth fund, central bank, monetary authority, or official instrumentality thereof that enters into a license with LLD IM GOLD hereunder, and which may be entitled to modified liability, notice, and territory provisions as described in Articles 4 and 9.

2.12 "Enterprise Licensee" means a corporate or commercial entity with annual gross revenues exceeding fifty million United States Dollars (USD $50,000,000) that enters into a license hereunder and does not qualify as a Sovereign Licensee or Research/Academic Licensee.

2.13 "Audit Period" means the rolling thirty-six (36) month window preceding the date of any audit notice, during which period Licensee's books and records relating to royalty-bearing activities under the Definitive Agreement are subject to inspection and verification pursuant to Article 6.

2.14 "Indemnified Party" and **"Indemnifying Party"** shall have the meanings ascribed to them respectively in Article 9 of this Term Sheet.

2.15 "Smart Contract Address" means the Ethereum-compatible or functionally equivalent blockchain address(es) associated with the LLDAO Treasury governance contract(s), as disclosed to Licensee upon execution of the Definitive Agreement and updated by LLD IM GOLD upon any migration or redeployment, references to which shall be recorded in *Schedule E*.

2.16 "Force Majeure" means any event beyond the reasonable control of the affected party, including without limitation: acts of God, natural disasters, pandemics, war, terrorism, acts of sovereign authority, imposition of international sanctions, blockchain network failures (including 51% attacks, consensus failures, or protocol-level outages), gold market trading halts declared by recognized commodity exchanges, and systemic financial infrastructure failures. Economic hardship or market downturns alone shall not constitute Force Majeure.

2.17 "Licensed Know-How" means proprietary trade secrets, technical data, processes, protocols, formulas, designs, and methodologies owned or controlled by LLD IM GOLD, distinct from and not encompassed by the claims of the Licensed Patents, which LLD IM GOLD may elect to include in the license scope pursuant to a separately negotiated Know-How addendum.

2.18 "Sublicense" means any grant by Licensee to a third party of any of the rights licensed to Licensee under the Licensed Patents within the Licensed Field of Use, whether direct or indirect, express or implied, subject to the prior written consent requirement and flow-down obligations set forth in Article 6.

ARTICLE 3 — GRANT OF LICENSE

3.1 Grant Scope. Subject to the terms and conditions of the Definitive Agreement and satisfaction of all applicable **DAO Governance Triggers**, **LLD IM GOLD** grants to **Licensee** a [*exclusive / non-exclusive / co-exclusive — to be selected at execution*] license under the **Licensed Patents** to make, have made, use, sell, offer for sale, and import Licensed Products solely within the **Licensed Field of Use** and the Territory as defined in *Schedule B*. No license is granted, expressly or by implication, to any patent, patent application, or intellectual property right of LLD IM GOLD except as expressly set forth herein.

3.2 AETHEL Grid Field-of-Use Segmentation. The license granted herein is strictly limited to the **Grid Sector(s)** designated in *Schedule B*. Licensee may not practice the **Licensed Patents** in any other Grid Sector without a separate written amendment executed by **LLD IM GOLD** and, where required by the threshold set forth in Article 7, confirmed by **DAO Governance**. The following table sets forth the principal parameters of the AETHEL Grid licensing architecture:

Grid Sector ID	Sector Name	Permitted Uses	Excluded Uses	Royalty Tier
[AS-001]	*[To be defined in Schedule B]*	*[To be defined in Schedule B]*	*[To be defined in Schedule B]*	Tier [__]
[AS-002]	*[To be defined in Schedule B]*	*[To be defined in Schedule B]*	*[To be defined in Schedule B]*	Tier [__]
[AS-00N]	*[Additional sectors per Schedule B]*	*[To be defined in Schedule B]*	*[To be defined in Schedule B]*	Tier [__]

3.3 Sublicensing. Sublicenses under the Licensed Patents are permitted only with the prior written consent of **LLD IM GOLD** and, where required, a simple majority **DAO Governance** vote pursuant to Section 7.2(e). Licensee shall remain primarily liable for the compliance of each sublicensee with all material obligations of the Definitive Agreement as if Licensee itself were the sublicensee. All sublicense agreements must: (a) flow down all material terms and restrictions applicable to Licensee; (b) require the sublicensee to keep records and submit to audit rights; (c) identify LLD IM GOLD as an intended third-party beneficiary of sublicense compliance obligations; and (d) terminate automatically upon termination of Licensee's license.

3.4 Reservation of Rights. LLD IM GOLD expressly reserves all rights in and to the Licensed Patents not expressly granted herein. Without limiting the generality of the foregoing, LLD IM GOLD reserves: (a) all rights in all Grid Sectors not included in the Licensed Field of Use; (b) all rights in and to the AETHEL Grid architecture, including all intellectual property therein; (c) all rights in and to the LLDAO Treasury IP and governance protocol IP; (d) the right to license any other party in any Grid Sector other than those granted on an exclusive basis to Licensee; and (e) all rights arising under Licensed Know-How not expressly included in a Know-How addendum. No implied licenses are granted hereunder.

3.5 Government Rights Notice. To the extent any Licensed Patent was conceived or reduced to practice in whole or in part with financial assistance from the U.S. federal government, the applicable provisions of the Bayh-Dole Act (35 U.S.C. §§ 200–212) shall apply, including without limitation the government's retained license rights and march-in rights. No provision of this Term Sheet or the Definitive Agreement shall be construed to divest, diminish, or waive any such government rights.

ARTICLE 4 — TERRITORY

4.1 Default Territory. Unless otherwise restricted in *Schedule B*, the territory of the license granted herein is worldwide ("Territory"), subject in all cases to the **Grid Sector** restrictions set forth in *Schedule B* and any limitations arising from applicable export control and sanctions laws. Notwithstanding the worldwide grant, Licensee's rights are exercisable only in jurisdictions in which the Licensed Patents are in force.

4.2 Sovereign Licensing — Territory Definitions. For any **Sovereign Licensee**, the Territory shall be defined by reference to the issuing jurisdiction's internationally recognized sovereign boundary as of the Effective Date of the Definitive Agreement. Sub-sovereign territories (including territories, protectorates, and special administrative regions) do not automatically fall within the Sovereign Licensee's Territory and shall require separate Grid Sector mapping and, where applicable, a separate DAO Governance confirmation pursuant to Article 7.

4.3 Export Controls and Sanctions Compliance. Licensee represents and warrants that it shall, at all times during the term of the Definitive Agreement, comply fully with: (a) the U.S. Export Administration Regulations (EAR), 15 C.F.R. Parts 730–774; (b) the International Traffic in Arms Regulations (ITAR), 22 C.F.R. Parts 120–130, to the extent applicable; (c) regulations administered by the U.S. Office of Foreign Assets Control (OFAC) and the U.S. Department of Commerce; and (d) all analogous national or multilateral export control and sanctions regimes applicable to Licensee. Licensee shall not transfer, disclose, or grant access to any Licensed Patents, Licensed Know-How, or licensed technology to any restricted party, denied entity, or entity located in an embargoed jurisdiction without all required governmental authorizations.

ARTICLE 5 — ROYALTIES, GOLD-BACKED TREASURY MECHANICS & PAYMENT TERMS

5.1 Royalty Structure

The following table sets forth the indicative royalty structure by Licensee tier and Grid Sector classification. All rates are subject to confirmation in *Schedule C* at execution of the Definitive Agreement. USD equivalents are indicative only, based on LBMA gold pricing as of the date hereof, and will be recalculated at each settlement date.

Licensee Tier	Grid Sector	Royalty Base	GBRU Rate	USD Equivalent (Indicative)	Payment Frequency
Standard Enterprise	As designated in Schedule B	Net Revenues	[__] GBRUs per $1,000 NR	$[__] per $1,000 NR	Quarterly
Strategic Enterprise	As designated in Schedule B	Net Revenues	[__] GBRUs per $1,000 NR	$[__] per $1,000 NR	Quarterly
Sovereign Tier 1	As designated in Schedule B	Net Revenues or Fixed Annual Fee	[__] GBRUs / annum (minimum)	$[__] / annum (indicative)	Annually (in advance)
Sovereign Tier 2	As designated in Schedule B	Net Revenues or Fixed Annual Fee	[__] GBRUs / annum (minimum)	$[__] / annum (indicative)	Semi-Annually
Research / Academic	Non-commercial only	Nominal / Revenue-Share	[__] GBRUs (nominal)	$[__] (nominal)	Annually

5.2 Gold-Backed Royalty Unit (GBRU) Mechanics. All royalties under the Definitive Agreement may be denominated, at Licensee's election (subject to LLD IM GOLD confirmation), in **GBRUs**. Settlement of GBRU-denominated royalties shall be effected by one of the following methods, at **LLDAO Treasury** discretion and subject to applicable law:

(a) **USD Settlement:** Conversion at the LBMA AM/PM gold price fix on the last business day of each calendar quarter; funds wire-transferred to the LLDAO Treasury designated account;

(b) **Physical Gold Delivery:** Delivery of fine gold (999.9 purity, troy ounce basis) to the designated LLDAO vault facility (Utah-based, consistent with the Utah HB 306 Precious Metals framework and applicable Utah precious metals depository regulations); or

(c) **Approved Digital Currency:** Payment in a qualified stablecoin (USD-pegged, audited reserve) or Central Bank Digital Currency (CBDC) approved by LLDAO Treasury at its sole discretion, converted from GBRU value at the time of remittance; full mechanics detailed in *Schedule F*.

5.3 Milestone Payments. In addition to running royalties, Licensee shall make the following non-refundable milestone payments, the specific amounts of which shall be set forth in *Schedule C*:

(a) **Upfront License Fee:** payable upon execution of the Definitive Agreement;

(b) **First Commercial Sale Milestone:** payable upon the date of first commercial sale of a Licensed Product in any jurisdiction;

(c) **Regulatory Approval Milestone:** where applicable, payable upon receipt of required regulatory clearance or approval for the Licensed Product in the primary commercial territory;

(d) **Net Revenue Threshold Milestones:** payable upon Licensee's cumulative Net Revenues from Licensed Products reaching each threshold amount specified in *Schedule C*; and

(e) **Field-of-Use Expansion Milestone:** payable upon each DAO Governance-approved expansion of the Licensed Field of Use to an additional Grid Sector.

5.4 Minimum Annual Royalties. For any exclusive license granted hereunder, Licensee shall pay a Minimum Annual Royalty (**"MAR"**) sufficient to maintain exclusivity in the Licensed Field of Use. The MAR shall be set forth in *Schedule C* and shall escalate annually on each anniversary of the Effective Date by the greater of: (a) the percentage increase in the Consumer Price Index for All Urban Consumers (CPI-U) published by the U.S. Bureau of Labor Statistics for the preceding calendar year; or (b) three percent (3%). Failure to pay the MAR by the applicable due date shall, upon 30 days' written notice and failure to cure, result in automatic conversion of the exclusive license to a non-exclusive license.

5.5 Royalty Stacking Protection. The parties agree to negotiate in good faith regarding royalty stacking relief in the event that Licensee reasonably determines that it must obtain additional licenses from third parties covering intellectual property that is necessary to practice the Licensed Field of Use as commercially defined. Royalty stacking adjustments, if agreed, shall not reduce royalties payable to LLD IM GOLD by more than [__]% without supermajority DAO Governance approval under Section 7.2(c).

5.6 Brulotte/Kimble Compliance and Step-Down Royalty Schedule. All royalty obligations tied to the practice of the **Licensed Patents** shall terminate upon the **Patent Expiration Date** in the relevant jurisdiction. **Post-Expiration Know-How Royalties**, if separately negotiated and set forth in a Know-How addendum to the Definitive Agreement, shall be expressly and exclusively tied to **Licensed Know-How** only, and shall not be tied to or conditioned upon any patent claim. The parties acknowledge the holdings of *Brulotte v. Thys Co.*, 379 U.S. 29 (1964) and *Kimble v. Marvel Ent., LLC*, 576 U.S. 446 (2015), and agree that no royalty obligation shall extend the effective economic life of any Licensed Patent beyond its statutory term. The following step-down schedule shall apply:

Period	Royalty Rate (% of Net Revenues)	Patent Component	Know-How Component	Notes
Pre-Expiration (Active Patent Term)	[Full Rate — per Schedule C]	Yes — primary basis	Included (bundled)	Royalty fully enforceable under patent rights
Post-Expiration Year 1–2	[Stepped-Down Rate — per Schedule C]	No — zero (0%)	Yes — sole basis	Know-How addendum required; Brulotte-compliant

Period	Royalty Rate (% of Net Revenues)	Patent Component	Know-How Component	Notes
Post-Expiration Year 3–5	[Further Reduced Rate — per Schedule C]	No — zero (0%)	Yes — sole basis	Kimble-compliant; separately negotiated
Post Know-How Term	Zero (0%)	No	No	All royalty obligations fully extinguished

5.7 Late Payment. Any royalty or milestone payment not received by LLD IM GOLD by the applicable due date shall bear interest from the due date at the rate of one and one-half percent (1.5%) per month, or the maximum rate permitted under applicable Utah law, whichever is lesser. In the event of nonpayment exceeding thirty (30) calendar days following written notice of overdue status, LLD IM GOLD shall have the right to suspend Licensee's license rights until payment in full (including accrued interest) is received, without prejudice to any other remedy available at law or equity.

ARTICLE 6 — REPORTING & AUDIT RIGHTS

6.1 Royalty Reports. Licensee shall deliver to LLD IM GOLD a written royalty report within forty-five (45) calendar days following the end of each calendar quarter. Each royalty report shall include, at minimum: (a) Net Revenues by Licensed Product and by jurisdiction; (b) number of units sold, licensed, or otherwise transferred; (c) the applicable royalty rate for each product category; (d) the GBRU/USD conversion rate applied and source thereof; (e) itemized deductions claimed from gross revenues in computing Net Revenues; and (f) total royalties due for the period, accompanied by payment of such amounts.

6.2 Record Keeping. Licensee shall maintain complete, accurate, and auditable books and records in sufficient detail to enable verification of all royalty reports and royalty calculations for the duration of the **Audit Period**. Records shall be maintained in a format accessible by a qualified independent accountant and retained for a minimum of thirty-six (36) months following the period to which they relate, or such longer period as may be required by applicable law.

6.3 Audit Rights. LLD IM GOLD, or its designated independent certified public accounting firm (subject to reasonable confidentiality obligations), shall have the right, upon at least thirty (30) days' prior written notice, to inspect and audit Licensee's books and records relevant to royalty-bearing activities during the **Audit Period**, no more than once per calendar year (unless a prior audit disclosed an underpayment exceeding five percent (5%)). Audit costs shall be borne by LLD IM GOLD; provided, however, that if such audit reveals an underpayment in excess of five percent (5%) of the amount actually due for the audited period, Licensee shall bear all reasonable audit costs. Any underpayment identified by audit shall be paid within thirty (30) days of written audit conclusion, together with interest as provided in Section 5.7.

6.4 On-Chain Audit Mechanism — AETHEL Audit Node. Where Licensee operates a blockchain-integrated platform or conducts royalty-bearing activities on a distributed ledger environment, LLD IM GOLD may designate a smart-contract-based royalty tracking module (the **"AETHEL Audit Node"**) to provide real-time or periodic automated royalty verification and reporting. Licensee shall integrate the AETHEL Audit Node API within ninety (90) calendar days of execution of the Definitive Agreement for all blockchain-native operations within the Licensed Field of Use. The AETHEL Audit Node shall: (a) operate in a read-only capacity with respect to Licensee's royalty data; (b) transmit data exclusively to the LLDAO Treasury smart contract and designated Legal Representative; and (c) comply with all applicable data protection and privacy laws.

6.5 Confidentiality of Audit Results. All audit findings, working papers, and conclusions shall be treated as **Confidential Information** of both parties and disclosed only: (a) to each party's legal counsel and tax advisors under equivalent confidentiality obligations; (b) as required by applicable law, court order, or regulatory authority; or (c) as necessary to enforce rights arising from the audit findings in arbitration or judicial proceedings.

ARTICLE 7 — DAO GOVERNANCE TRIGGERS & LLDAO TREASURY INTEGRATION

7.1 DAO Governance Structure. LLD IM GOLD is organized and governed pursuant to Utah Code Ann. §48-5-201 et seq. (Utah LLD Act). On-chain governance is conducted via smart contracts deployed at the **Smart Contract Address** specified in *Schedule E*. Off-chain legal and commercial actions are conducted by the **Legal Representative**, as authorized by DAO vote and in accordance with the authority delegated under Utah Code Ann. §48-5-305. All material licensing actions identified in Section 7.2 are subject to DAO governance approval prior to taking effect.

7.2 DAO Governance Triggers. The following license events and actions require DAO Governance action as specified:

Action	Governance Level Required	Vote Threshold	Timeline
(a) Granting exclusive licenses in any Grid Sector	DAO On-Chain Vote	Simple majority (>50%)	Within 21 days of proposal
(b) Expanding Licensed Field of Use to new Grid Sector	DAO On-Chain Vote	Supermajority (≥67%)	Within 21 days of proposal
(c) Modifying royalty rates by more than 15%	DAO On-Chain Vote	Supermajority (≥67%)	Within 21 days of proposal
(d) Approving Sovereign Licensee agreements	DAO On-Chain Vote	Supermajority (≥75%)	Within 21 days of proposal
(e) Sublicense consent to non-affiliated third parties	DAO On-Chain Vote	Simple majority (>50%)	Within 21 days of proposal
(f) Termination of license for material breach	Legal Representative Authority	Legal Representative action; notification to DAO within 5 business days	Immediate (with notice)

Action	Governance Level Required	Vote Threshold	Timeline
(g) Amendment of gold-backed settlement mechanics	DAO On-Chain Vote	Supermajority (≥75%)	Within 21 days of proposal

7.3 Governance Timeline. All DAO votes triggered under Section 7.2 must be completed within twenty-one (21) calendar days of the submission of the relevant proposal to the DAO governance interface. Failure to achieve quorum (as specified in *Schedule E*) within such period shall result in the proposal lapsing, with no action taken, unless resubmitted by the Legal Representative. No modification to license terms, royalty rates, or field-of-use grants shall take legal effect until the corresponding DAO confirmation is recorded on-chain and the transaction hash is made available to both parties.

7.4 Legal Representative Authority. The designated **Legal Representative** of LLD IM GOLD (Utah Code Ann. §48-5-305) is authorized to execute, negotiate, and enforce patent license agreements on behalf of LLD IM GOLD as directed by DAO governance resolutions. The identity and contact information of the Legal Representative shall be disclosed to Licensee upon written request and execution of a confidentiality agreement. In exercising authority, the Legal Representative shall be bound by the scope of authority conferred by the DAO and shall not act in excess of such authority.

7.5 Treasury Disbursement. All royalty receipts and milestone payments received by LLD IM GOLD shall be deposited into the **LLDAO Treasury**. Disbursements from the LLDAO Treasury shall be authorized by DAO vote in accordance with the governance protocol in *Schedule E*. LLD IM GOLD shall at all times maintain gold-backed reserves in the LLDAO Treasury equal to a minimum of ten percent (10%) of all outstanding royalty obligations and recognized liabilities, as required by the DAO governance protocol.

7.6 Bankruptcy and Dissolution. In the event of dissolution of LLD IM GOLD pursuant to Utah Code Ann. §48-5-501 et seq., the Licensed Patents and associated IP shall pass to a designated successor entity or DAO-designated IP trust as identified in the DAO governance protocol. All licenses granted under the Definitive Agreement shall survive dissolution of LLD IM GOLD and remain enforceable against any such successor entity or IP trust, which shall be bound by all obligations of LLD IM GOLD under the Definitive Agreement.

ARTICLE 8 — INTELLECTUAL PROPERTY OWNERSHIP & PROSECUTION

8.1 Ownership. LLD IM GOLD retains sole and exclusive ownership of all **Licensed Patents** and **Licensed Know-How**. Nothing in this Term Sheet or the Definitive Agreement shall be construed to convey, transfer, or assign to Licensee any title, ownership interest, or equity in or to any of the Licensed Patents, Licensed Know-How, or any other intellectual property of LLD IM GOLD. Licensee acquires only the limited license rights expressly granted herein.

8.2 Patent Prosecution and Maintenance. LLD IM GOLD, through its **Legal Representative** and designated patent counsel, shall be responsible for prosecution, maintenance, and renewal of all **Licensed Patents**. LLD IM GOLD shall, where commercially reasonable, consult with Licensee regarding prosecution strategy and claim development in the **Licensed Field of Use**. Licensee may provide comments and information to LLD IM GOLD but shall have no right to direct or control patent prosecution. LLD IM GOLD may, in its sole discretion, elect to abandon maintenance of any Licensed Patent upon reasonable advance notice to Licensee.

8.3 Licensee Improvements. Improvements to the Licensed Patents made solely by Licensee's employees or agents within the Licensed Field of Use shall be owned as follows: (a) improvements independently developed by Licensee without use of LLD IM GOLD's Confidential Information or Licensed Know-How shall be owned solely by Licensee; and (b) all such improvements, whether or not independently developed, shall be subject to a non-exclusive, royalty-free, worldwide, sublicensable grant-back license to LLD IM GOLD for use in any field of use, effective upon creation.

8.4 Joint Inventions. Inventions jointly conceived by employees or agents of both LLD IM GOLD and Licensee arising from activities within the Licensed Field of Use shall be jointly owned, with each party holding an undivided interest in accordance with applicable patent law. Each party shall be entitled to exploit jointly owned inventions without accounting to the other party, unless the parties enter into a separate written joint development or co-ownership agreement governing the exploitation and monetization of such joint inventions.

8.5 Patent Marking. Licensee shall mark all Licensed Products sold, offered for sale, or imported under the Definitive Agreement with the applicable patent number(s) as required by 35 U.S.C. §287, or with virtual marking in accordance with 35 U.S.C. §287(c). Licensee acknowledges that failure to comply with patent marking requirements may limit the damages recoverable by LLD IM GOLD in any infringement action relating to Licensed Products.

ARTICLE 9 — INDEMNIFICATION & LIABILITY

9.1 Licensee Indemnification. Licensee (as **Indemnifying Party**) shall indemnify, defend, and hold harmless LLD IM GOLD, its **Legal Representative**, DAO members, officers, agents, and the **LLDAO Treasury** (collectively, the **"Indemnified Party"** for purposes of this Section) from and against any and all third-party claims, demands, actions, losses, damages, liabilities, costs, and expenses (including reasonable attorneys' fees) arising out of or relating to: (i) Licensee's practice of the Licensed Patents outside the Licensed Field of Use or Territory; (ii) product liability, personal injury, or property damage claims arising from Licensed Products; (iii) Licensee's breach of any representation, warranty, or obligation under the Definitive Agreement; or (iv) the conduct of any sublicensee of Licensee.

9.2 Licensor Indemnification. LLD IM GOLD (as **Indemnifying Party**) shall indemnify, defend, and hold harmless Licensee (as **Indemnified Party**) against any third-party claim alleging that the Licensed Patents, as used by Licensee strictly within the Licensed Field of Use and Territory in accordance with the Definitive Agreement, infringe a third party's issued patent; provided that: (i)

Licensee promptly notifies LLD IM GOLD in writing upon becoming aware of such claim; (ii) LLD IM GOLD is given sole control of the defense and settlement of such claim; and (iii) Licensee provides all reasonable cooperation to LLD IM GOLD at LLD IM GOLD's expense. LLD IM GOLD shall have no indemnification obligation for claims arising from Licensee's combination of Licensed Patents with third-party products or processes not approved by LLD IM GOLD.

9.3 IP Warranty. LLD IM GOLD represents and warrants that, to its actual knowledge as of the Effective Date of the Definitive Agreement, it has the right and authority to grant the licenses set forth herein. LLD IM GOLD makes no representation or warranty, express or implied, regarding: (a) the validity, enforceability, or scope of any Licensed Patent; (b) freedom-to-operate or non-infringement with respect to third-party intellectual property rights; or (c) the commercial utility or fitness for any particular purpose of any Licensed Patent or Licensed Know-How.

9.4 Limitation of Liability. NEITHER PARTY SHALL BE LIABLE TO THE OTHER FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE, SPECIAL, OR EXEMPLARY DAMAGES ARISING OUT OF OR RELATED TO THE DEFINITIVE AGREEMENT, WHETHER IN CONTRACT, TORT, OR OTHERWISE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. The total aggregate liability of LLD IM GOLD to Licensee for all claims arising under the Definitive Agreement shall not exceed the total royalties and milestone payments actually paid by Licensee to LLD IM GOLD during the twelve (12) month period immediately preceding the date on which the relevant claim arose. Liability caps applicable to Sovereign Licensees shall be subject to separate negotiation and DAO governance approval.

9.5 Mutual Representations. Each party represents and warrants to the other that: (i) it has full legal power, capacity, and authority to enter into, and perform its obligations under, this Term Sheet and the Definitive Agreement; (ii) the execution and performance thereof does not conflict with any other agreement, obligation, or applicable law binding upon such party; (iii) it is in compliance with all applicable anti-money laundering (AML) and know-your-customer (KYC) requirements of applicable law; and (iv) it is not subject to any OFAC sanctions, listed on the OFAC Specially Designated Nationals (SDN) List, or otherwise prohibited from entering into the transactions contemplated herein.

ARTICLE 10 — CONFIDENTIALITY

10.1 Mutual Non-Disclosure Obligation. All **Confidential Information** (meaning non-public, proprietary, or competitively sensitive information of either party, however conveyed) exchanged in connection with the negotiation, execution, and performance of this Term Sheet and the Definitive Agreement shall be subject to a mutual confidentiality obligation of five (5) years, commencing from the date of disclosure or from the termination or expiration of the Definitive Agreement (whichever is later). Standard carve-outs apply for information that: (a) is or becomes publicly available through no fault of the receiving party; (b) was known to the receiving party prior to disclosure; (c) is independently developed by the receiving party without reference to the Confidential Information; or (d) must be disclosed pursuant to applicable law, court order, or regulatory requirement (provided the receiving party gives prompt prior written notice and cooperates in seeking protective measures).

10.2 DAO Transparency Exception. Notwithstanding Section 10.1, LLD IM GOLD may disclose to DAO governance participants and token holders: (a) aggregate licensing statistics for any Grid Sector; (b) aggregate royalty collection data for the LLDAO Treasury; and (c) Grid Sector utilization and exclusivity status data — in each case without identifying the Licensee by name or disclosing Licensee-specific commercial terms.

10.3 Binding Effect of Confidentiality. The confidentiality obligations set forth in this Article 10 are binding upon the parties immediately upon signing of this Term Sheet and shall constitute an enforceable agreement between the parties regardless of whether the Definitive Agreement is ever executed. All other provisions of this Term Sheet are non-binding except as provided in the disclaimer herein.

ARTICLE 11 — TERM & TERMINATION

11.1 License Term. The term of the patent license granted under the Definitive Agreement shall commence on the Effective Date and continue until the last-to-expire date of the **Licensed Patents** within the Licensed Field of Use and Territory. A separately negotiated Know-How license addendum may extend the license for Licensed Know-How for a period of up to five (5) years following the applicable **Patent Expiration Date**, subject to the Post-Expiration Know-How Royalty provisions of Section 5.6 and Brulotte/Kimble compliance.

11.2 Termination for Cause. Either party may terminate the Definitive Agreement upon sixty (60) days' written notice of material breach (or thirty (30) days' written notice for payment breach), if such breach is not cured within the cure period. LLD IM GOLD may terminate the Definitive Agreement immediately and without further notice upon: (a) Licensee's filing of a voluntary petition in bankruptcy or insolvency; (b) the entry of an order for relief or similar order in any proceeding under bankruptcy, insolvency, or receivership law; or (c) Licensee's general assignment for the benefit of creditors.

11.3 Termination for Convenience. LLD IM GOLD may terminate the Definitive Agreement upon twelve (12) months' written notice to Licensee (or twenty-four (24) months' written notice for any **Sovereign Licensee**). Licensee may terminate the Definitive Agreement for convenience upon ninety (90) days' prior written notice to LLD IM GOLD, subject to payment of all accrued royalties and any termination fee specified in *Schedule C*.

11.4 Effect of Termination. Upon expiration or termination of the Definitive Agreement for any reason: (a) all licenses granted to Licensee under the Licensed Patents shall immediately revert to LLD IM GOLD and Licensee shall immediately cease all practice of the Licensed Patents; (b) all royalties and milestone payments accrued and unpaid as of the termination date shall remain due and payable and shall survive termination; (c) confidentiality obligations under Article 10 shall survive; (d) audit rights of LLD IM GOLD shall survive for a period of three (3) years following the termination date; and (e) provisions that by their nature are intended to survive termination shall so survive.

11.5 Wind-Down Period. Upon termination of the Definitive Agreement (other than for Licensee's material breach or insolvency), Licensee shall be granted a wind-down period of ninety (90) days following the effective date of termination during which Licensee may sell or otherwise dispose of existing inventory of Licensed Products manufactured prior to termination. All such wind-down sales shall remain royalty-bearing at the rates applicable immediately prior to termination.

ARTICLE 12 — DISPUTE RESOLUTION

12.1 Good Faith Negotiation. The parties shall use commercially reasonable, good faith efforts to resolve any dispute, controversy, or claim arising out of or relating to this Term Sheet or the Definitive Agreement (a **"Dispute"**) through senior management negotiation within thirty (30) calendar days following delivery of written notice by the disputing party identifying the nature of the Dispute in reasonable detail.

12.2 Binding Arbitration. Any Dispute not resolved by good faith negotiation under Section 12.1 shall be finally and exclusively resolved by binding arbitration administered by JAMS pursuant to the JAMS International Arbitration Rules then in effect. The seat of arbitration shall be Salt Lake City, Utah, United States of America. The arbitral tribunal shall consist of three (3) arbitrators, with each party appointing one (1) arbitrator and the two party-appointed arbitrators jointly appointing the presiding arbitrator. All proceedings shall be conducted in English. The arbitral award shall be final, binding, and enforceable in any court of competent jurisdiction, and the parties waive any right to appeal on the merits.

12.3 Emergency Relief. Notwithstanding the arbitration agreement in Section 12.2, either party may seek emergency injunctive, specific performance, or other provisional relief from any court of competent jurisdiction without waiving or prejudicing its rights to arbitration, including in connection with actual or threatened breach of confidentiality obligations, unauthorized use of

Licensed Patents outside the Licensed Field of Use, or infringement of LLD IM GOLD's intellectual property.

12.4 Patent Validity Disputes. Any dispute or controversy relating to the validity, enforceability, or scope of any Licensed Patent shall be resolved exclusively before the United States Patent and Trademark Office (USPTO) (including through inter partes review (IPR) or post-grant review (PGR) proceedings) or in the U.S. federal courts pursuant to 28 U.S.C. §1338. The parties expressly agree that patent validity challenges shall not be submitted to or decided in arbitration.

12.5 DAO Governance Disputes. Disputes specifically relating to the exercise of a **DAO Governance Trigger** action or the validity of any on-chain governance decision shall first be submitted to the on-chain dispute resolution module (if available and specified in *Schedule E*). If such on-chain dispute resolution fails to produce a resolution within forty-five (45) calendar days, the dispute shall escalate to binding arbitration under Section 12.2.

ARTICLE 13 — GENERAL PROVISIONS

13.1 Governing Law. This Term Sheet and the Definitive Agreement shall be governed by and construed in accordance with the laws of the State of Utah, without giving effect to any conflicts of law principles that would result in the application of the laws of any other jurisdiction. All questions regarding the Licensed Patents, their validity, scope, and enforceability shall be governed exclusively by federal patent law (35 U.S.C. et seq.).

13.2 Entire Agreement (Upon Execution of Definitive Agreement). Upon execution of the Definitive Agreement, it shall constitute the entire agreement of the parties with respect to the subject matter hereof and shall supersede all prior and contemporaneous negotiations, letters of intent, memoranda of understanding, term sheets, and discussions between the parties relating to the same subject matter.

13.3 Amendments. No amendment, modification, or supplement to this Term Sheet or the Definitive Agreement shall be valid or effective unless made in writing and signed by duly authorized representatives of both parties, and, where required under Article 7, confirmed by DAO Governance action recorded on-chain.

13.4 Assignment. Licensee may not assign, transfer, delegate, or otherwise dispose of any of its rights or obligations under the Definitive Agreement, whether by operation of law, merger, acquisition, or otherwise, without the prior written consent of LLD IM GOLD and, where applicable, DAO Governance approval under Section 7.2. LLD IM GOLD may assign the Definitive Agreement in whole to: (a) a successor entity resulting from merger, consolidation, or reorganization of LLD IM GOLD; (b) a DAO-designated IP trust; or (c) an affiliated entity controlled by LLD IM GOLD — in each case without Licensee's consent, provided that the assignee assumes all obligations of LLD IM GOLD under the Definitive Agreement.

13.5 Severability. If any provision of this Term Sheet or the Definitive Agreement is held to be invalid, illegal, or unenforceable under applicable law, such provision shall be modified to the minimum extent necessary to make it valid and enforceable, and the remaining provisions shall continue in full force and effect, unaffected by such invalidity or unenforceability.

13.6 Waiver. No failure or delay by either party in exercising any right, power, or remedy shall constitute a waiver of that right, power, or remedy. No waiver of any provision of this Term Sheet or the Definitive Agreement shall be effective unless made in a writing signed by the waiving party specifically referencing the provision being waived.

13.7 Notices. All formal notices under this Term Sheet and the Definitive Agreement shall be delivered: (a) to LLD IM GOLD at the address of record of the Legal Representative, by certified mail, overnight courier, or email with confirmed receipt; and (b) for all DAO-triggering actions, additionally posted or recorded at the Smart Contract Address as a notification record on-chain. Notices shall be effective upon actual receipt or, for on-chain posting, upon confirmation of transaction finality on the applicable blockchain network.

13.8 Counterparts and Electronic Execution. This Term Sheet and the Definitive Agreement may be executed in one or more counterparts, each of which shall constitute an original and all of which together shall constitute one and the same instrument. Execution by electronic signature (including via DocuSign or equivalent electronic signature platform) shall be deemed valid and enforceable to the same extent as an original ink signature, pursuant to the Utah Uniform Electronic Transactions Act, Utah Code Ann. §46-4-101 et seq. Execution by on-chain cryptographic signature using the Licensee's or Legal Representative's designated digital wallet shall constitute a valid and binding signature for all purposes of the Utah Uniform Electronic Transactions Act and any applicable federal electronic commerce law.

ARTICLE 14 — DOCTRINAL SAFEGUARDS & LEGAL COMPLIANCE ANNEX

14.1 Anti-Misuse Compliance. No provision of this Term Sheet or the Definitive Agreement shall be construed, applied, or enforced in any manner that would constitute patent misuse. LLD IM GOLD shall not enforce, or seek to enforce, any Licensed Patent in any manner that unlawfully extends the scope of the patent beyond its claims or its statutory term, consistent with *Morton Salt Co. v. G.S. Suppiger Co.*, 314 U.S. 488 (1942) and *Illinois Tool Works Inc. v. Independent Ink, Inc.*, 547 U.S. 28 (2006). No tying arrangement or mandatory package license shall be imposed as a condition of any license hereunder without independent legal review and DAO governance confirmation.

14.2 Brulotte Safe Harbor. Consistent with *Brulotte v. Thys Co.*, 379 U.S. 29 (1964), *Kimble v. Marvel Ent., LLC*, 576 U.S. 446 (2015), and circuit authority including *Ares Trading S.A. v. Dyax Corp.*, 114 F.4th 123 (3d Cir. 2024) and *C.R. Bard v. Atrium Medical Corp.*, 112 F.4th 1182 (9th Cir. 2024), all royalty obligations tied to the practice of Licensed Patent claims shall step down to zero (0%) upon the applicable **Patent Expiration Date** in each jurisdiction. Any royalty obligation continuing after such date shall be expressly and exclusively grounded in **Licensed Know-How** under a separately documented Know-How addendum, shall be set at a rate reflecting only the value of such Know-How, and shall be independently supportable without reference to any patent claim.

14.3 DAO Member Liability Shield. Consistent with Utah Code Ann. §48-5-202, DAO members of LLD IM GOLD who vote against, or abstain from, a treasury disbursement action shall not be personally liable for such disbursement. Fiduciary duties among DAO members are disclaimed to the fullest extent permitted under Utah Code Ann. §48-5-307, absent an express written assumption of such duties by a specific member. Nothing in this Term Sheet shall impose any personal liability on any individual DAO member, token holder, or governance participant of LLD IM GOLD.

14.4 Bayh-Dole Compliance. Where any Licensed Patent was developed in whole or in part with U.S. federal government funding, the march-in rights of the U.S. government under 35 U.S.C. §203 are expressly acknowledged and preserved. No provision of the Definitive Agreement shall be construed to diminish, waive, or disclaim any federal government license rights under 35 U.S.C. §202(c)(4) or any other provision of the Bayh-Dole Act. Licensee acknowledges the existence of such government rights.

14.5 AML/KYC Requirements. Prior to execution of the Definitive Agreement, Licensee shall furnish LLD IM GOLD with complete anti-money laundering (AML) and know-your-customer (KYC) documentation as reasonably required under applicable law and LLD IM GOLD's internal compliance protocols, including without limitation: (a) corporate formation documents; (b) beneficial ownership disclosure; (c) source-of-funds documentation; and (d) OFAC screening results. LLD IM GOLD reserves the right to terminate negotiations or terminate the Definitive Agreement, without liability, if Licensee or any controlling principal of Licensee appears on the OFAC Specially Designated Nationals and Blocked Persons (SDN) List or any analogous international sanctions list.

14.6 Tax Withholding and Gross-Up. All royalty, milestone, and other payment amounts specified in this Term Sheet and the Definitive Agreement are stated as gross amounts. If Licensee is required by applicable law to withhold any tax from any payment to LLD IM GOLD, Licensee shall gross up such payment so that LLD IM GOLD receives the full specified net amount after withholding. The parties agree to cooperate in good faith to reduce or eliminate withholding obligations through applicable tax treaties, forms, and certifications, including W-8BEN-E, W-9, and similar instruments as applicable.

14.7 Most Favored Licensee (MFL) Clause. Enterprise Licensees and **Sovereign Licensees** may negotiate Most Favored Licensee status for their designated **Grid Sector** as part of the Definitive Agreement. MFL status entitles the Licensee to royalty rates and material economic terms no less favorable than those offered or granted by LLD IM GOLD to any other licensee in the same Grid Sector and the same Licensee Tier, measured as of the date such other license takes effect. MFL adjustments, if triggered, shall take effect upon the next royalty period following notification and shall require DAO governance confirmation under Article 7.

SCHEDULES

The following Schedules are incorporated by reference into this Term Sheet and shall form part of the Definitive Agreement upon execution. All Schedule contents are subject to negotiation and DAO governance confirmation prior to execution.

SCHEDULE A — Licensed Patents

[TO BE ATTACHED AT EXECUTION]

Schedule A shall set forth a complete listing of all Licensed Patents, including for each: (a) patent number or application number; (b) title of invention; (c) filing date; (d) issue date (if issued); (e) jurisdiction(s); (f) current status; (g) Patent Expiration Date (including any patent term extension); and (h) applicable Grid Sector designation. Foreign counterparts, continuations, divisionals, and reissues shall be identified as such. The Schedule shall be updated by LLD IM GOLD as new patents issue or applications publish, subject to notice to Licensee.

SCHEDULE B — AETHEL Grid Field-of-Use Map

[TO BE COMPLETED AT EXECUTION — INDICATIVE STRUCTURE BELOW]

Schedule B defines each Grid Sector within the AETHEL Grid, including the Licensed Field of Use granted to Licensee. The following table illustrates the Schedule B structure; actual sector definitions and assignments are subject to DAO governance:

Sector ID	Sector Name	Technology Domain	Commercial Domain	Geographic Scope	Royalty Tier	Exclusivity Available
[AS-001]	[To be designated]	[To be defined]	[To be defined]	[Jurisdiction(s)]	Tier [__]	Yes / No
[AS-002]	[To be designated]	[To be defined]	[To be defined]	[Jurisdiction(s)]	Tier [__]	Yes / No
[AS-003]	[To be designated]	[To be defined]	[To be defined]	[Jurisdiction(s)]	Tier [__]	Yes / No
[AS-00N]	[Additional sectors]	[To be defined]	[To be defined]	[Jurisdiction(s)]	Tier [__]	Yes / No

---

SCHEDULE C — Royalty Rate Schedule

[TO BE ATTACHED AT EXECUTION]

Schedule C shall set forth: (a) detailed GBRU royalty rates by Licensee tier and Grid Sector; (b) USD equivalent rates (indicative, based on LBMA gold price as of Effective Date); (c) the full milestone payment schedule with amounts and trigger events; (d) the Minimum Annual Royalty schedule and escalation formula; (e) the Brulotte-compliant step-down royalty schedule for post-expiration periods; (f) applicable Know-How Royalty rates (if any); and (g) any MFL benchmarks. All rates subject to DAO governance confirmation.

SCHEDULE D — Form of Definitive License Agreement

[TO FOLLOW — DRAFT TO BE CIRCULATED WITHIN [__] DAYS OF EXECUTION OF TERM SHEET]

Schedule D shall contain the full form of the Definitive Patent License Agreement, incorporating all terms of this Term Sheet, together with standard representations and warranties, conditions precedent, additional covenants, and schedules as agreed by the parties. The Definitive Agreement shall be reviewed and confirmed by DAO governance prior to execution by the Legal Representative.

SCHEDULE E — DAO Governance Protocol Reference

[TO BE COMPLETED AT EXECUTION]

Schedule E shall set forth: (a) the Smart Contract Address(es) for the LLDAO Treasury and governance contracts; (b) quorum requirements for each category of DAO vote; (c) voting thresholds for each DAO Governance Trigger action type as specified in Section 7.2; (d) the on-chain dispute resolution module address (if deployed); (e) the AETHEL Audit Node API endpoint(s) and integration specifications; and (f) procedures for on-chain execution and cryptographic signature of the Definitive Agreement.

SCHEDULE F — Gold-Backed Settlement Procedures

[TO BE COMPLETED AT EXECUTION]

Schedule F shall set forth: (a) GBRU conversion mechanics and reference rate sources (LBMA PM fix, frequency, fallback rates); (b) Utah vault delivery procedures for physical gold settlement, including delivery specifications (fineness, bar weight, assay requirements), authorized vault facilities, and chain-of-custody documentation; (c) the approved digital currency list (qualifying stablecoins and CBDCs), including any reserve audit requirements; (d) wire transfer and payment account instructions for USD settlement; and (e) procedures governing the gold-backed reserve maintenance requirement referenced in Section 7.5.

SIGNATURE BLOCK

The parties, by their duly authorized signatories set forth below, acknowledge having read and understood this Term Sheet and, to the extent expressly provided herein, agree to be bound by the confidentiality obligations of Article 10 and any designated exclusivity lock-up provisions from the date first set forth above.
